Product Details

| | | |
|-----------------------|---|----------|
| Applications | This product has been reported to work in the following applications: | |
| | | Dilution |
| | Western Blot | 1:1000 |
| | <p>This information is derived from testing within our laboratories and peer-reviewed publications. Please refer to references indicated for further information. For general protocol recommendations, please visit https://7tmantibodies.com/7tm-antibodies-support/7tm-protocols/</p> <p>Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.</p> | |
| Target Species | Human | |
| Product Form | Purified IgG, liquid | |
| Antiserum Preparation | Antiserum to human APLNR was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography. | |
| Immunogen | A synthetic phosphopeptide derived from human APLNR around the phosphorylation site Ser343/Ser345. | |
| Storage Buffer | Dulbecco's PBS, pH 7.4, with 150 mM NaCl, 0.02% sodium azide | |
| Specificity | Serine343/Serine345 (S343/S345) is major phosphorylation site of the Apelin Receptor (APLNR). The pS343/pS345-APLNR antibody detects phosphorylation in response to agonists. S343/S345 phosphorylation is likely to be involved in efficient ligand sequestration by APLNR. | |
| Guarantee | 12 months from date of dispatch | |
| Storage | <p>Store at -20°C.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody.</p> | |
