# **7T** Antibodies

# Data Sheet (DS) 7TM0223A

## Issuing Date: 2021-11-17

| Description  | pT335-FPR2 (phospho-Formylpeptide Receptor 2 |  |
|--------------|--|--|
|              | Antibody)                                    |  |
| Format       | Purified, Liquid                             |  |
| Product Type | Rabbit Polyclonal Antibody                   |  |
| Isotype      | Polyclonal IgG                               |  |
| Quantity     | 100 µl                                       |  |

### **Product Details**

| Applications             | This product has been reported to work in the following applications:   |   |  |
|--------------------------|---|---|--|
|                          |   | Dilution  |  |
|                          | Western Blot  | 1:1000  |  |
|                          | This information is derived from testing within our laboratories and peer-<br>reviewed publications. Please refer to references indicated for further<br>information. For general protocol recommendations, please visit<br><u>https://7tmantibodies.com/7tm-antibodies-support/7tm-protocols/</u><br>Suggested working dilutions are given as a guide only. It is<br>recommended that the user titrates the product for use in their own<br>system using appropriate negative/positive controls. |   |  |
| Target Species           | Human   |   |  |
| Product Form             | Purified IgG, liquid  |   |  |
| Antiserum<br>Preparation | Antiserum to human FPR2 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.   |   |  |
| Immunogen                | A synthetic phosphopeptide derived from human FPR2 around the phosphorylation site Thr335.  |   |  |
| Storage Buffer           | Dulbecco's PBS, pH 7.4, with 150 mM NaCl, 0.02% sodium azide  |   |  |
| Specificity              | Threonine335 (T335) is a major phose<br>receptor. The pT335-FPR2 antibody<br>to high-efficacy agonists. T335 phose<br>FPR2 desensitization, $\beta$ -arrestin recr  | detects phosphorylation in response phorylation is a key regulator of |  |
| Guarantee                | 12 months from date of dispatch   |   |  |
| Storage                  | Store at -20°C.   |   |  |
|                          | This product should be stored undilut   |   |  |
|                          | thawing as this may denature the ant  | Ibody.  |  |
| Regulatory               | For research purposes only  |   |  |

| Health and  | Material Safety Data Sheet documentation is available at             |
