

Data Sheet (DS) 7TM0057B

Issuing Date: 2022-01-14

| Description | pT338/pT340-CB2 (phospho-Cannabinoid Receptor 2 |
|--------------|-------------------------------------------------|
| | Antibody) |
| Format | Purified, Liquid |
| Product Type | Rabbit Polyclonal Antibody |
| Isotype | Polyclonal IgG |
| Quantity | 100 µl |

Product Details

| Applications | This product has been reported to work in the following applications: | | |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|--|
| | | Dilution | |
| | Western Blot | 1:1000 | |
| | This information is derived from testing within our laboratories and peer-reviewed publications. Please refer to references indicated for further information. For general protocol recommendations, please visit https://7tmantibodies.com/7tm-antibodies-support/7tm-protocols/ Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls. | | |
| Target Species | Human | | |
| Product Form | Purified IgG, liquid | | |
| Antiserum Preparation | Antiserum to human CB2 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography. | | |
| Immunogen | A synthetic phosphopeptide derived from human CB2 around the phosphorylation site Thr338/Thr340. | | |
| Storage Buffer | Dulbecco's PBS, pH 7.4, with 150 mM NaCl, 0.02% sodium azide | | |
| Specificity | Threonine338/Threonine340 (T338/T340) is major phosphorylation site of the Cannabinoid Receptor 2 (CB2). The pT338/pT340-CB2 antibody detects phosphorylation in response to agonists. T338/T340 phosphorylation is likely to be involved in efficient ligand sequestration by CB2. | | |
| Guarantee | 12 months from date of dispatch | | |
| Storage | Store at -20°C. This product should be stored undilut thawing as this may denature the ant | • | |
| Regulatory | For research purposes only | | |

| Health and | Material Safety Data Sheet documentation is available at |
